MAKALU

by Aptar

CONVENIENT USING

- **Directional flow** with raised spout.
- **Controlled and versatile dispensing** with the Aptar's best-in-class valve technology.
- Conveniently pouring with the active hinge allows **lid to stay open** during usage.
- **Wide application:** large valve size facilitates dispensing with chunks and high viscosities.

SUSTAINABILITY

- **Lightweight closure** (only 4.5g*).
- SimpliSqueeze valve and compatible with **SimpliCycle fully recyclable valve**.

* Without valve and liner

SPECIFICATIONS:

- 38-400 neck finish
- 40mm outer diameter
- Dispensing options
 - Orifice: 6 / 12.5 / 16 mm
 - Large valve (.634")
- Flat Seal
- Liner capable

CLEAN EVERY TIME

- Perfect cut-off valve feature minimizes **stringing & drip**.
- No spurting, leaking or spills.

LINE EFFICIENCY

- **Capping efficiencies** thanks to the ribbed surface finish.
- **Robust closure** with high-resistant hinge.
