

AUGUST 2019

# Aptar Beauty + Home Launches Apollo

Revolutionary new  
2-IN-1 dual spray  
actuator providing  
consumer choice in  
delivery!

*Aptar Beauty + Home is a solution  
partner of packaging dispensing systems  
for the Beauty, Personal Care and Home*

Apollo offers brands a unique point of differentiation by providing consumers two spray options in one product. Consumers have the freedom of choice in an intuitive and easy to use actuator. With a simple twist left or twist right, consumers control their preferred application, creating a personalized product experience.

Brands can select between multiple spray insert combinations for endless possibilities across multiple applications. "Apollo meets consumer demands for customization and convenience in one package. Choose a wide spray for full coverage or a narrow spray for precise application" comments Lisa Petersmark, Vice President Regional Market Development, Personal Care Aptar Beauty + Home.

Apollo's patented design includes Aptar's twist-to-lock technology, which provides peace of mind for secure transportation on-the-go and will withstand the rigors of e-commerce shipping.

Technical Details: Twist to lock actuator, multiple spray insert combinations, fits 1" mounting cup & designed for BOV or VX Valves.
