- 

◆ **Classification, labelling and packaging of substances and mixtures :**

  - EU Regulation 1272/2008 EC (in parallel with Dir 67/548 and 1999/45)

**PLEASE NOTE:**

Any requirement going beyond existing regulations requires case by case investigation and discussion between the different parties.

Aptar Beauty+Home does not carry out systematic chemical analysis or migration studies on its Beauty packaging. It remains the responsibility of its customers as end-users to check the compatibility of the packaging with the fragrance and bulk to be dispensed and to ensure that there is no negative interaction between them which could endanger the environment or human life.

Aptar Beauty+Home will deliver the regulatory required data to the person responsible for the evaluation of safety of the cosmetic product and its packaging.

Aptar Food+Beverage will deliver the formal Declarations of Conformity to the Food market.
