

## **REACH Regulation 1907/2006 - SVHC, annexes XIV and XVII position paper**

**DISCLAIMER**

This document is confidential and only disclosed to a limited number of recipients, who are also obliged to keep such information confidential. By accepting delivery of products the recipient hereof agrees that Aptargroup, inc.'s ("Aptar") obligations with respect to its products are governed solely by its standard terms and conditions for sale found at [www.aptar.com](http://www.aptar.com), which are hereby incorporated by reference, or by the particular agreements or contracts under which the products are provided. Aptar manufactures its products to meet its standard specifications and does not guarantee that its products meet other specifications not previously agreed upon in writing. All information contained herein is provided without any promise, representation, or warranty, express or implied, of any kind, including—without limitation—any warranties of merchantability, fitness for a particular purpose or non-infringement of any intellectual property rights. Any reliance on the information contained herein shall be at your own risk. All title, ownership rights and intellectual property rights in and relating to this document including but not limited to confidential information, know-how, drawings and concepts remain the property of Aptar and/or its direct or indirect subsidiaries. Any additional or different terms or conditions in any form delivered by the recipient hereof are hereby deemed to be material alterations and notice of objection to them and rejection of them is hereby given.

As a producer of articles, we are well aware of our duty to communicate information related to Substances of Very High Concern (SVHC), in accordance with Article 33 of the REACH Regulation. We confirm that we monitor the REACH candidate list, and that we are aware of the latest additions to the list of SVHCs, published on the ECHA website July 8th, 2021.

Our suppliers of raw materials and components also have a duty to inform us if their products contain substances on the SVHC candidate list at a concentration above 0.1% w/w. In the event of notification by our suppliers of the existence of one of the substances exceeding the 0.1% w/w threshold, we will inform you as soon as possible, if the products you purchase are impacted. This commitment is valid for any further addition to the Candidate list.

We also confirm that:

- We do not add any of these substances during the manufacturing process.
- We do not manufacture articles which contain substances intended to be released under normal or reasonably foreseeable conditions of use.

Annexes XIV (list of substances subject to authorization) and XVII (restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles) of REACH, cover a great number of substances, mixtures and articles affecting many industries.

Suppliers of such substances, preparations and articles have the duty to respect these annexes as far as they are applicable to their products. Aptar Beauty + Home is conscious of its obligations under REACH. We regularly monitor the evolution of the annexes, and therefore the compliance of our products with these requirements, where applicable.
